Patient: Patient, Example

DOB: 4/14/1971
Gender: Female
Patient Identifiers: 01234567890ABCD, 012345
Visit Number (FIN): 01234567890ABCD
Collection Date: 00/00/0000 00:00

Ehrlichia chaffeensis Antibodies, IgG & IgM by IFA

ARUP test code 0051002

Ehrlichia chaffeensis Antibody, IgG

<1:64 (Ref Interval: <1:64)
INTERPRETIVE INFORMATION: Ehrlichia Chaffeensis IgG Ab

Less than 1:64 Negative: No significant level of Ehrlichia chaffeensis IgG antibody detected.
1:64-1:128 Equivocal: Questionable presence of Ehrlichia chaffeensis IgG antibody detected. Repeat testing in 10-14 days may be helpful.
1:256 or greater Positive: Presence of IgG antibody to Ehrlichia chaffeensis detected, suggestive of current or past infection.

Seroconversion between acute and convalescent sera is considered strong evidence of recent infection. The best evidence for infection is a significant change (fourfold difference in titer) on two appropriately timed specimens, where both tests are done in the same laboratory at the same time.

This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the US Food and Drug Administration. This test was performed in a CLIA certified laboratory and is intended for clinical purposes.

Ehrlichia chaffeensis Antibody, IgM

< 1:16 (Ref Interval: < 1:16)

H=High, L=Low, *=Abnormal, C=Critical

INTERPRETIVE INFORMATION: Ehrlichia Chaffeensis IgM Ab

Less than 1:16 Negative - No significant level of Ehrlichia chaffeensis IgM antibody detected.
1:16 or greater Positive - Presence of IgM antibody to Ehrlichia chaffeensis detected, suggestive of current or recent infection.

While the presence of IgM antibodies suggest current or recent infection, low levels of IgM antibodies may occasionally persist for more than 12 months post-infection. A single IgM result should be interpreted with caution.

This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the US Food and Drug Administration. This test was performed in a CLIA certified laboratory and is intended for clinical purposes.
