E. coli Shiga-like Toxin by EIA

ARUP test code 0060047

E. coli Shiga-like Toxin by EIA

Positive * (Ref Interval: Negative)

Antimicrobial agents should not be used as they increase the risk of hemolytic uremic syndrome in patients infected with shigatoxin producing organisms.

INTERPRETIVE INFORMATION: E. coli Shiga-like Toxin by EIA
This test detects Shiga-like toxin which may be produced by greater than 150 serotypes of E. coli as well as Shigella dysenteriae type 1 strains. The level of toxin does not correlate with severity of disease. A positive result does not exclude infection caused by another enteric pathogen. A negative test does not exclude the diagnosis of hemorrhagic colitis.
