Histoplasma capsulatum Identification

ARUP test code 0062226

Source: Respiratory

Body Site: BAL

Free Text Sources: Resp

Final Report

Culture negative for Histoplasma capsulatum. Culture POSITIVE for Aspergillus terreus Group Identification by phenotypic methods. This organism typically displays elevated Minimum Inhibitory Concentrations (MICs) to Amphotericin B. Although little data are available regarding correlation between MIC and treatment outcome for fungi, Amphotericin B MICs above 2 ug/mL have been associated with treatment failure.
