Vitamin C (Ascorbic Acid), Plasma

ARUP test code 0080380

Vitamin C, Plasma

217 umol/L H (Ref Interval: 23-114)

INTERPRETIVE DATA: Vitamin C (Ascorbic Acid), Plasma

Vitamin C concentrations lower than 11 umol/L indicate deficiency. Concentrations between 11 and 23 umol/L are consistent with a moderate risk of deficiency due to inadequate tissue stores.

Vitamin C concentration is reported as micromoles per liter (umol/L). To convert concentration to milligrams per deciliter (mg/dL), multiply the result by 0.0176.

This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the US Food and Drug Administration. This test was performed in a CLIA certified laboratory and is intended for clinical purposes.
