Client: Example Client ABC123
123 Test Drive
Salt Lake City, UT 84108
UNITED STATES

Physician: Doctor, Example

Patient: Patient, Example

DOB	10/16/1973
Gender:	Female
Patient Identifiers:	01234567890ABCD, 012345
Visit Number (FIN):	01234567890ABCD
Collection Date:	00/00/0000 00:00

Cancer Antigen 125

ARUP test code 0080462

Cancer Antigen 125

144892 U/mL H **(Ref Interval: <=38)**

INTERPRETIVE INFORMATION: Cancer Antigen 125

The Roche CA 125 electrochemiluminescent immunoassay was used. Results obtained with different test methods or kits cannot be used interchangeably. The CA 125 test is used as an aid in monitoring response to therapy for patients with epithelial ovarian cancer. Serial testing for patient CA 125 values should be used in conjunction with other clinical methods for monitoring ovarian cancer. Patients with confirmed ovarian carcinoma may have pretreatment CA 125 values in the same range as healthy individuals. Elevations may be observed in patients with nonmalignant disease. Therefore, a CA 125 value, regardless of level, should not be interpreted as absolute evidence of the presence or absence of malignant disease.

VERIFIED/REPORTED DATES

Procedure	Accession	Collected	Received	Verified/Reported
Cancer Antigen 125	24-249-106483	00/00/0000 00:00	00/00/0000 00:00	00/00/0000 00:00
