Visit Number (FIN): 01234567890ABCD
Collection Date: 01/01/2017 12:34

Drugs of Abuse Confirmation/Quantitation - Methadone and Metabolite - Meconium

ARUP test code 0092313

Drug Confirmation, Methadone/Metab, Mec

Positive

INTERPRETIVE INFORMATION: Drug Confirmation,
Methadone/Metab, Mec

1. Drugs covered: methadone and metabolite (EDDP).
2. Positive cutoff: 10 ng/g.
3. For medical purposes only; not valid for forensic use.
4. Meconium begins to form between the 12th and 16th week of gestation. Meconium drug testing can detect maternal drug use during the last 4 to 5 months of pregnancy. A negative result does not exclude the possibility that a mother used drugs during pregnancy. Detection of drug use depends on the quantity and quality of the specimen tested as well as the pattern and frequency of drug(s) used by mother. The concentration value must be greater than or equal to the cutoff to be reported as positive. Interpretive questions should be directed to the laboratory.

Test developed and characteristics determined by ARUP Laboratories. See Compliance Statement B: aruplab.com/CS
