Complement Component 9
ARUP test code 0099076

Complement Component 9

5.0 mg/dL  L  (Ref Interval: 6.0-29.0)

Low levels of C9 indicate either increased catabolism or decreased synthesis.
This test was performed using a kit that has not been cleared or approved by the FDA. The analytical performance characteristics of this test have been determined by Quest Diagnostics Nichols Institute San Juan Capistrano. This test should not be used for diagnosis without confirmation by other medically established means.

Performed by: Quest Diagnostics Nichols Institute
