Visit Number (FIN): 01234567890ABCD
Collection Date: 00/00/0000 00:00

Aluminum, Serum

ARUP test code 0099266

Aluminum, Serum

<5.0 ug/L (Ref Interval: 0.0-15.0)

INTERPRETIVE INFORMATION: Aluminum, Serum

Serum aluminum greater than 50.0 ug/L is consistent with overload and may correlate with toxicity.

Elevated results may be due to skin or collection-related contamination, including the use of a noncertified metal-free collection/transport tube. If contamination concerns exist due to elevated levels of serum aluminum, confirmation with a second specimen collected in a certified metal-free tube is recommended.

This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the U.S. Food and Drug Administration. This test was performed in a CLIA-certified laboratory and is intended for clinical purposes.
