Voriconazole, Quantitation by LC-MS/MS

ARUP test code 2001737

Voriconazole, Quantitation by LC-MS/MS

18.1 ug/mL H (Ref Interval: 1.0-6.0)

INTERPRETIVE INFORMATION: Voriconazole, Quantitation
by LC-MS/MS

Therapeutic Range (trough):
1.0-6.0 ug/mL

Toxic Range: Greater than 6.0 ug/mL

Voriconazole is an azole antifungal drug indicated to treat invasive aspergillosis, candidiasis, scedosporiosis, and fusariosis infections. The therapeutic range is based on serum, predose (trough) draw collection at steady-state concentration. The pharmacokinetics of voriconazole are influenced by drug-drug interactions when coadministered with drugs metabolized by cytochrome P450 2C9, 2C19 and 3A4 enzymes. Adverse effects may include nausea, vomiting, tachycardia, and elevated serum liver enzymes.

This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the US Food and Drug Administration. This test was performed in a CLIA certified laboratory and is intended for clinical purposes.

VERIFIED/REPORTED DATES
