

Patient: [REDACTED]
DOB: [REDACTED] Age: 33 Gender: F
Patient Identifiers: [REDACTED]
Visit Number (FIN): [REDACTED]

Client: [REDACTED]
Physician: [REDACTED]

ARUP Test Code: 2002363
Collection Date: 08/17/2019
Received in lab: 08/17/2019
Completion Date: 08/18/2019

Interpretation

Specimen Received
Specimen Type: Peripheral Blood
Reason for Referral: PML
Test Performed: FISH PML

NORMAL FISH RESULT
t(15;17)(q24;q21) (PML;RARA): translocation not detected

DIAGNOSTIC IMPRESSION:
Fluorescence in situ hybridization (FISH) analysis was performed with the PML/RARA DF probe (Abbott Molecular).

This analysis showed normal results in 200 interphase cells scored.

ISCN:
nuc ish(PML,RARA)x2[200]

This result has been reviewed and approved by Erica F. Andersen, Ph.D., FACMG
