N-methyl-D-Aspartate Receptor Antibody, IgG, CSF with Reflex to Titer

ARUP test code 2005164

N-methyl-D-Aspartate Receptor Ab, CSF **1:80** * (Ref Interval: < 1:1)

Antibodies to NMDA were detected; titer was performed at an additional charge.

INTERPRETIVE INFORMATION: N-methyl-D-Aspartate Receptor Ab, CSF

Anti-NMDA receptor IgG antibody is found in a subset of patients with autoimmune limbic encephalitis and may occur with or without associated tumor. Decreasing antibody levels may be associated with therapeutic response; therefore, clinical correlation must be strongly considered. A negative test result does not rule out a diagnosis of autoimmune limbic encephalitis.

Test developed and characteristics determined by ARUP Laboratories. See Compliance Statement B: aruplab.com/CS
