

Client: Example Client ABC123
123 Test Drive
Salt Lake City, UT 84108
UNITED STATES

Physician: Doctor, Example

Patient: Patient, Example

DOB

Gender: Male

Patient Identifiers: 01234567890ABCD, 012345

Visit Number (FIN): 01234567890ABCD

Collection Date: 00/00/0000 00:00

Serotonin Release Assay (Heparin Dependent Platelet Antibody), Unfractionated Heparin

ARUP test code 2005631

SRA, Unfractionated Heparin, Low Dose 0 %

SRA, Unfractionated Heparin, High Dose 0 %

SRA, Unfractionated Heparin Negative (Ref Interval: Negative)

SRA, Unfractionated Heparin, Interp.

See Note

This patient's specimen demonstrates a negative result in the serotonin release assay. A diagnosis of heparin-induced thrombocytopenia (HIT) is unlikely, but not completely excluded.

A positive result would demonstrate \geq 20% serotonin release from reagent platelets in the presence of patient specimen and low-dose heparin (0.1 U/mL) and $<$ 20% serotonin release from reagent platelets (inhibition of the reaction) in the presence of patient specimen and high-dose heparin (100 U/mL). Additional information regarding diagnosis of HIT is available at arupconsult.com.

INTERPRETIVE INFORMATION: SRA, Unfractionated Heparin

Test developed and characteristics determined by ARUP Laboratories. See Compliance Statement B: aruplab.com/CS
