

Client: Example Client ABC123  
123 Test Drive  
Salt Lake City, UT 84108  
UNITED STATES

Physician: Doctor, Example

**Patient: Patient, Example**

**DOB:** 12/28/1994  
**Gender:** Female  
**Patient Identifiers:** 01234567890ABCD, 012345  
**Visit Number (FIN):** 01234567890ABCD  
**Collection Date:** 01/01/2017 12:34

**Sexually Transmitted Disease Panel 1 by Transcription-Mediated Amplification**

ARUP test code 2006258

APTIMA Media Type                      Urine

Specimen Source                          Urine

**C. trachomatis by TMA                      Positive                      \*                      (Ref Interval: Negative)**

INTERPRETIVE INFORMATION: C. trachomatis by TMA

This test is intended for medical purposes only and is not valid for the evaluation of suspected sexual abuse or for other forensic purposes. In certain contexts, culture may be required to meet applicable laws and regulations for diagnosis of C. trachomatis and N. gonorrhoeae infections. Per 2014 CDC recommendations, this test does not include confirmation of positive results by an alternative nucleic acid target.

**N. gonorrhoeae by TMA                      Negative                      (Ref Interval: Negative)**

INTERPRETIVE INFORMATION: N. gonorrhoeae by TMA

This test is intended for medical purposes only and is not valid for the evaluation of suspected sexual abuse or for other forensic purposes. In certain contexts, culture may be required to meet applicable laws and regulations for diagnosis of C. trachomatis and N. gonorrhoeae infections. Per 2014 CDC recommendations, this test does not include confirmation of positive results by an alternative nucleic acid target.

**T. vaginalis by TMA                          Negative                          (Ref Interval: Negative)**

Test developed and characteristics determined by ARUP Laboratories. See Compliance Statement B: aruplab.com/CS

**H=High, L=Low, \*=Abnormal, C=Critical**

Unless otherwise indicated, testing performed at:

Interpretive Information: Trichomonas vaginalis by TMA

A negative result does not completely rule out infection with T. vaginalis.

Results should be interpreted in conjunction with other clinical data. This test has not been validated for use with self-collected vaginal swab specimens from patients. Performance of this test on vaginal swab specimens from pregnant women has not been evaluated.

This test is intended for medical purposes only and is not valid for the evaluation of suspected sexual abuse or for other forensic purposes.
