Patient: Patient, Example

DOB: Unknown
Gender: Unknown
Patient Identifiers: 01234567890ABCD, 012345
Visit Number (FIN): 01234567890ABCD
Collection Date: 00/00/0000 00:00

Hexosaminidase A Percent and Total Hexosaminidase in Leukocytes

ARUP test code 2008125

Hexosaminidase Total, Leukocytes 1780.0
 INTERPRETIVE INFORMATION: Hexosaminidase A Pct and Total in Leukocytes
 Total Hexosaminidase in Leukocytes is reported in nmols hydrolyzed/hr/mg of protein.
 This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the US Food and Drug Administration. This test was performed in a CLIA certified laboratory and is intended for clinical purposes.

Hexosaminidase A Percent in Leukocytes 70.1 % (Ref Interval: >=63.0)

Hexosaminidase in Leukocytes Interp Normal
 In this sample, hexosaminidase A activity, expressed as percentage of total hexosaminidase, was normal. Total hexosaminidase activity was also within normal ranges. Based on these results, this individual is NOT affected with Tay-Sachs disease (OMIM 272800), and is NOT predicted to be a carrier for Tay-Sachs disease or for Sandhoff disease (OMIM 268800). Milder variant forms of Tay-Sachs disease, such as the B1 variant or the activator protein deficiency (OMIM 272750), may not be identified by this assay.

H=High, L=Low, *=Abnormal, C=Critical
