Client: Example Client ABC123
123 Test Drive
Salt Lake City, UT 84108
UNITED STATES

Physician: Doctor, Example

Patient: Patient, Example

DOB	2/7/1996
Sex:	Male
Patient Identifiers:	01234567890ABCD, 012345
Visit Number (FIN):	01234567890ABCD
Collection Date:	01/01/2017 12:34

Amphetamines Urine Screen with Reflex to Quantitation

ARUP test code 2012209

Amphetamines Screen, Urine	PresumptivePOS ng/mL * Presumptive positive results are automatically reflexed to confirmation testing by mass spectrometry. INTERPRETIVE INFORMATION: Amphetamines Screen, Urine Methodology: Immunoassay Positive Cutoff: 300 ng/mL
Screen, Urine Interpretation	See Note INTERPRETIVE INFORMATION: Flagging indicates a positive result; not that the result is abnormal. Presumptive negative results for drug(s) and/or drug metabolite(s) may indicate non-compliance, inappropriate timing of specimen collection relative to drug administration, poor drug absorption, diluted/adulterated urine, or limitations of testing. The concentration at which the screening test can detect a drug or metabolite varies within a drug class. For medical purposes only; not valid for forensic use.

Amphetamines, Urine, Quantitative

ARUP test code 2010075

Amphetamine, Urn, Quant	3617 ng/mL INTERPRETIVE INFORMATION: Amphetamines, Urine, Quantitative Methodology: Quantitative Liquid Chromatography-Tandem Mass Spectrometry Positive cutoff: 200 ng/mL unless specified below: Amphetamine 50 ng/mL For medical purposes only; not valid for forensic use. The absence of expected drug(s) and/or drug metabolite(s) may indicate non-compliance, inappropriate timing of specimen

H=High, L=Low, *=Abnormal, C=Critical

collection relative to drug administration, poor drug absorption, diluted/adulterated urine, or limitations of testing. The concentration value must be greater than or equal to the cutoff to be reported as positive. Interpretive questions should be directed to the laboratory.

This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the US Food and Drug Administration. This test was performed in a CLIA certified laboratory and is intended for clinical purposes.

MDA, Urn, Quant	<200 ng/mL
MDEA, Urn, Quant	<200 ng/mL
MDMA, Urn, Quant	<200 ng/mL
Methamphetamine, Urn, Quant	<200 ng/mL
Phentermine, Urn, Quant	<200 ng/mL
