

Client: Example Client ABC123
123 Test Drive
Salt Lake City, UT 84108
UNITED STATES

Physician: Doctor, Example

Patient: Patient, Example

DOB: 4/3/1959
Gender: Male
Patient Identifiers: 01234567890ABCD, 012345
Visit Number (FIN): 01234567890ABCD
Collection Date: 00/00/0000 00:00

Zolpidem Urine with Reflex to Quantitation

ARUP test code 2012300

Zolpidem, Urn, Screen	PresumptivePOS ng/mL (Ref Interval: Cutoff 20)
If the screen is PresumptivePos, then confirmation testing by mass spectrometry will be added. Additional charges will apply.	

Screen, Urine Interpretation	See Note INTERPRETIVE INFORMATION: The absence of expected drug(s) and/or drug metabolite(s) may indicate non-compliance, inappropriate timing of specimen collection relative to drug administration, poor drug absorption, diluted/adulterated urine, or limitations of testing. The concentration at which the screening test can detect a drug or metabolite varies. Specimens for which drugs or drug classes are detected by the screen are reflexed to a second, more specific technology (GC/MS and/or LC-MS/MS). The concentration value must be greater than or equal to the cutoff to be reported as positive. Interpretive questions should be directed to the laboratory. For medical purposes only; not valid for forensic use.
------------------------------	--

Zolpidem, Urine, Quantitative

ARUP test code 2012319

Zolpidem, Urn, Quant	78 ng/mL Consistent with use of a drug containing zolpidem, such as Ambien.
----------------------	--

H=High, L=Low, *=Abnormal, C=Critical

INTERPRETIVE INFORMATION: Zolpidem, Urine, Quantitative

Methodology: Quantitative Liquid Chromatography-Tandem Mass Spectrometry
Drugs covered: zolpidem.

Positive cutoff: 20 ng/mL

For medical purposes only; not valid for forensic use.

The absence of expected drug may indicate non-compliance, inappropriate timing of specimen collection relative to drug administration, poor drug absorption, diluted/adulterated urine, or limitations of testing. The concentration value must be greater than or equal to the cutoff to be reported as positive. Interpretive questions should be directed to the laboratory.

This test was developed and its performance characteristics determined by ARUP Laboratories. It has not been cleared or approved by the US Food and Drug Administration. This test was performed in a CLIA certified laboratory and is intended for clinical purposes.
