Visit Number (FIN): 01234567890ABCD
Collection Date: 00/00/0000 00:00

Bacterial Vaginosis by TMA

ARUP test code 3002582

Bacterial Vaginosis by TMA

Positive *

INTERPRETIVE INFORMATION: Bacterial Vaginosis by TMA

A negative result does not preclude a possible infection.

A single qualitative result is determined based on relative amounts of the following target organisms: Lactobacillus (L. gasseri, L. crispatus, and L. jensenii), Gardnerella vaginalis, and Atopobium vaginae. This assay does not report individual organisms.

Results should be interpreted in conjunction with other clinical data. This test has not been validated for use with specimens collected by patients at home.

This test is intended for medical purposes only and is not valid for the evaluation of suspected sexual abuse or for other forensic purposes.
