This test has not been cleared or approved by the US Food
and Drug Administration. The reference interval has been
established using the ISI preservative indicated for this
test. No other sample types are acceptable.
This test was developed and its performance characteristics
determined by Inter Science Institute.
Values obtained with different methods, laboratories,
or kits cannot be used interchangeably with the results
on this report.
The results cannot be interpreted as absolute evidence
of the presence or absence of malignant disease.
Performed by: INTER SCIENCE INSTITUTE
